About Me

Experienced Chief Technology Officer and Full Stack Developer with a strong background in web, mobile, and enterprise solutions development. Led multidisciplinary teams in delivering scalable platforms, mobile applications, e-commerce systems, and digital transformation projects while improving system performance and operational efficiency. Passionate about innovation, technology strategy, and building high-performing teams with expertise in PHP, Laravel, JavaScript, MySQL, API development, system architecture, project management, and cloud technologies.

Work Experience

Chief Technology Officer

Mega Vision · Aug, 2022 – Present

Managed Mega Vision's technology strategy and supervised multidisciplinary teams across web development, mobile application development, branding, and digital marketing projects.

Led full project lifecycle planning, architecture design, development processes, and deployment operations for client solutions.

Directed and coordinated cross-functional teams including developers, designers, marketers, and project managers to ensure timely and high-quality project delivery. Developed scalable technical solutions and optimized workflows to improve operational efficiency and client satisfaction.

Collaborated with clients to understand business requirements and transform ideas into innovative digital products and services.

Oversaw technical decision-making, system performance, security standards, and implementation of modern development practices.

Contributed to company growth by enhancing service quality, improving delivery performance, and supporting strategic business objectives.

Chief Technology Officer

Bawabt Alsharq · May, 2020 – Aug, 2022

Managed company-level architecture, platform and data configuration processes and implementation protocols.

Developed and implemented long-term strategic technological blueprint.

Directed Bawabt Alsharq engineering team's complex project development and functionality objectives.

Briefed executives on technology risks and suggested ways to alleviate concerns.

Handled client inquiries with exceptional professionalism and enthusiasm.

Provided Bawabt Alsharq project leadership in dynamic technology-driven environment with multiple priorities.

Completed and submitted monthly and yearly reports to support executive decision making.

Improved Bawabt Alsharq system delivery performance and reliability.

Web Developer

Freelancer · Jan, 2005 – May, 2020

Built and styled new mobile-friendly websites, transitioning legacy presentations to simultaneous easy-to-use versions.

Discussed site and app requirements with clients to produce actionable development plans and budgets.

Modified existing code written in programming languages such as PHP and MySQL.

Coded websites using HTML, CSS, JavaScript and j Query languages.

Generated web hosting presence to accommodate specified needs, uploading and maintaining files on account.

Implemented Google-based SEO and ad campaigns to meet budget specifications.

Adhered to SEO best practices while designing sites and public-facing online deliverables.

General Manager

Infinity Zone · May, 2017 – May, 2020

Developed effective business plans to align strategic decisions with long-term objectives.

Delivered business strategy and developed systems and procedures to improve operational quality and team efficiency.

Assessed supplier quality to maintain tight cost controls and maximize business operational performance.

Organized budgets, oversaw P&Ls and achieved margin targets consistently to stay on track with growth plans.

Maximized efficiency by coaching and mentoring personnel on management principles, industry practices, company procedures and technology systems.

IT Support Specialist

Big Foot Firms · Apr, 2017 – Apr, 2019

Developed and tested new product offerings prior to release to assist development team in bug identification.

Provided Tier 1 IT support to non-technical internal users through desk side support services.

Prepared new computers and mobile devices according to internal policies on standardized software and security deployments.

Responded to faults in both LAN and WAN networks to rapidly restore connectivity and prevent unnecessary downtimes.

Provided support for networking protocols and characteristics.

Monitored systems in operation and input commands to troubleshoot areas.

Manager

Compu Phone · Apr, 2016 – Apr, 2017

Raised performance in areas of sales, management and operations by identifying and targeting areas in need of improvement.

Conducted monthly inventories of raw materials and components on work floor.

Applied customer feedback to develop process improvements and support long-term business needs.

Directed staff and managed annual capital budget.

Established and administered annual budget with controls to prevent overages, minimize burn rate and support sustainability objectives.

Developed and maintained relationships with customers and suppliers through account development.

Accomplished multiple tasks within established timeframes.

Owner

Compu Hayah · Mar, 2011 – Mar, 2014

Aligned branding initiatives and sales strategies with client goals.

Set, enforced and optimized internal policies to maintain responsiveness to demands.

Monitored market conditions to set accurate product pricing and take advantage of emerging trends.

Assessed supplier quality to maintain tight cost controls and maximize business operational performance.

Optimized team hiring, training and performance.

Founded and managed Compu Hayah business, growing revenue to 100,000 L.E in first year.
